

Alpaca Account Setup Guide

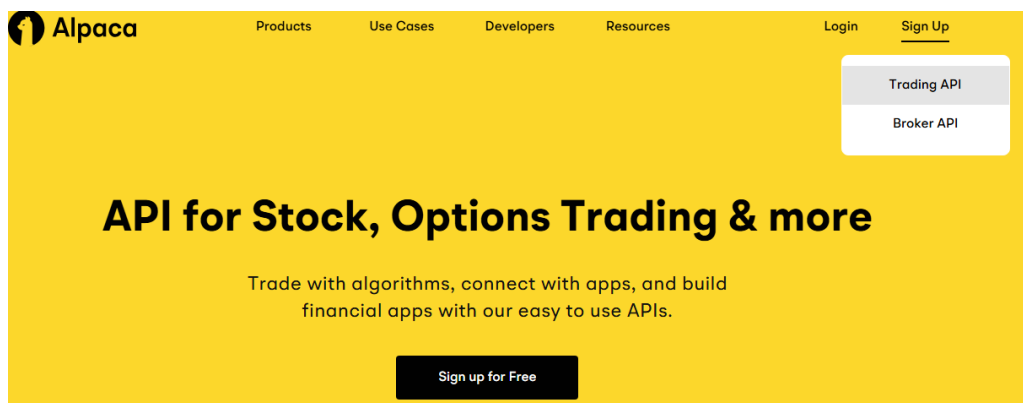

Follow these steps to create an Alpaca account and obtain your API keys for paper trading.

Step 1: Go to the Alpaca website

Visit: <https://alpaca.markets>

Step 2: Sign up

Hover your cursor on Sign Up and select Trading API

Step 3: Enter all your details, then click Sign up.

A screenshot of the Alpaca 'Create Your Trading API Account' form. The form is on a white background with the Alpaca logo at the top. The title 'Create Your Trading API Account' is centered. The form fields are: 'First Name' (John), 'Last Name' (Doe, with a red border and a red error message 'Must be at least 2 characters'), 'Country of Tax Residence' (United States of America), 'Email' (john.doe@example.com), 'Password' (masked with dots), and 'How did you hear about us?' (a dropdown menu with 'Select an option'). At the bottom, there is a checkbox for 'Verify you are human' and a Cloudflare logo.

Easy to Use, Developer-First API

Build, backtest and deploy your strategy across thousands of stocks, ETFs, options, and crypto with Trading API.

Commission-Free Trading for Retail Investors

Trade stocks, ETFs, and options with zero commissions using our powerful API and Web Dashboard.

Advanced Algorithmic Trading for Institutional Investors

Elevate your trading experience with our cost-effective solutions. Benefit from ultra-low 1.5ms latency, dedicated white-glove support, and a full suite of advanced order types.

Real-time Market Data

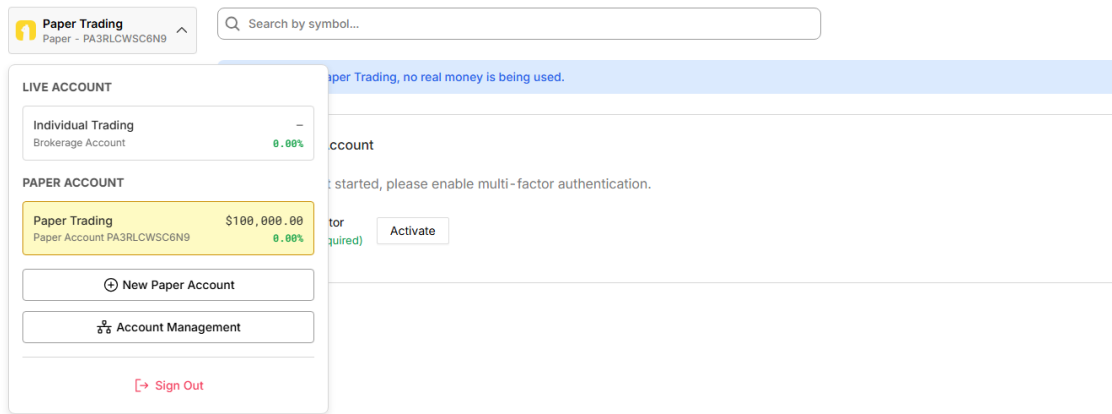

Real-time and historical market data for both paper and live trading. Trade smarter with a complete view of the market.

Step 4: Login to Dashboard

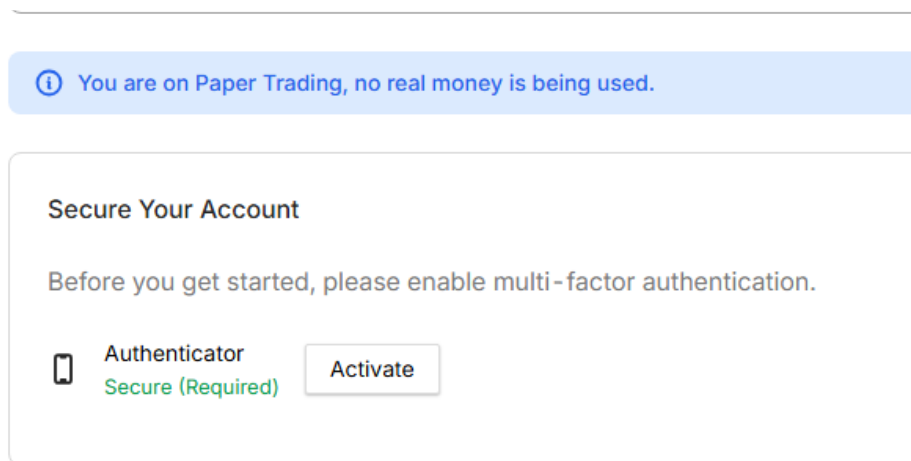

Verify your email and then log in using the credentials you created in step 3.

Step 5: Ensure Paper Mode

Check that your account is set to 'Paper Trading' mode at the top left.

Step 6: Enable Multi-factor Authentication

In this step, you'll need to have an authenticator app installed on your phone, such as Google Authenticator or another of your choice.

Step 7: Generate API Keys

Navigate to 'API Keys' and click 'Generate New Key'. Save your API Key and Secret Key securely.

Important Notes

- Paper trading works globally and does not require KYC.
- Do not share your API Secret Key with anyone.
- Live trading accounts may have restrictions depending on your country.
- Always use paper trading for learning and testing strategies.
